

PASSWORD FORMAT

CHANGE

IN ASAT 4.44

- Passwords in ASAT must now be 10 characters or more, in length.
- The password must start with a letter, either upper or lower case.
- The password must contain two special characters.

PASSWORD FORMAT CHANGE

IN ASAT 4.44

- There are only ~~four~~ special characters to choose from and they are:
 - @ (an "at" sign)
 - _ (an "underscore")
 - # (the "pound" sign)
 - \$ (the "dollar" sign)
- Any combination of the above, or duplication can be used.

PASSWORD FORMAT

- **Example:** ~~AS_at#\$921~~ or AS_at\$
\$3111 IN ASAT 4.44

- When you log into ASAT 4.44 with your current password you will be prompted that your password has expired.
- The next screens you will receive are to prompt you to enter and verify your new password.

PASSWORD FORMAT **CHANGE** **IN ASAT 4.44**

- If you do not type the same password at the verification screen, you cannot go back.
- Select “Cancel” and start again.
